Teaching Method

Lectures, videos, audios, group discussion

Teaching methods are based on a communicative approach of French as a foreign language with the focus on the acquisition of the following skills: expression and comprehension, both written and oral. The objective is to provide knowledge of French language and culture in French speaking countries through communication in real situations.

As a student, you will be responsible for half of your progression; personal work in addition to class attendance is of course necessary.

English is used, even for complete beginners. Yet, after only a few hours, the students quickly master enough elementary French to exchange with their Instructor.

Attendance

Attendance requirements are governed by the “Academic Regulations Governing Bachelor’s Degree Programs of Macao Polytechnic Institute”.

Assessment

This learning module is graded on a 100-point scale, with 50 being the passing score.

	Item	Description	Percentage
1.	Continual Evaluation	Attendance and participation	20%
2.	Final Exam	/	80%
Total Percentage:			100%

Plagiarism Policy

It is student’s responsibility to ensure that his/her assignment has been checked by Turnitin software, and the similarity score given by Turnitin software cannot be higher than 30%. However, a special case can be determined by the instructor.
